OBJECTIVE

Skilled Android Developer adept at creating efficient, user-friendly mobile applications. Proficient in Java and Kotlin, with a strong understanding of Android SDK and development tools.

EDUCATION

Advanced Diploma in Software Engineering, Aptech Learning Center 2020 - 2023
Relevant Coursework: Programming, Mobile Application Development And Web Application Development.

SKILLS

Technical Skills	Android, Kotlin, Java, Android SDK, Jetpack Compose
Soft Skills	Problem-solving, Communication, Team Collaboration, Time Management

EXPERIENCE

Android Developer	Feb 2025 - Present
Imtiaz Super Market	Karachi, PK

- Successfully managed and implemented new features in the PDA GRN application, significantly improving warehouse operations at Imtiaz, the leading retail chain in Pakistan.
- Developed and launched new Android applications on demand, meeting specific business requirements and timelines.
- Enhanced existing applications, boosting efficiency and user experience, contributing to overall project success.

Android Developer	Sep 2022 - Jan 2025
Meta Frolic Labs (Formerly Salsoft Technologies)	Karachi, PK

- Developed a production ready app for OysterVPN, showcasing advanced Android development skills.
- Expanded product accessibility by creating Android TV and Fire TV apps, broadening user reach and engagement.
- Collaborated with the UI/UX team to design an intuitive and user-friendly interface, enhancing overall usability and customer satisfaction.

Android Developer	Mar 2024 - Feb 2025
Techelix	Karachi, PK

- Developed a cutting-edge fitness app in Jetpack Compose, ensuring smooth transition to production.
- Developed and implemented multiple features for an app with 30K to 50K monthly users, contributing to a 99% crash-free performance.
- Managed and maintained three live apps, swiftly addressing bugs and leveraging Crashlytics for robust stability.

Junior Android Developer	May 2022 - Sept 2022
Si Global Solution	Karachi, PK

- Introduced a pivotal new feature to a client's app with over 10 million users, enhancing its functionality and user experience.
- Received client praise for successful new feature, reflecting satisfaction with delivered work.
- Spearheaded the development of a custom keyboard app, showcasing innovation and versatility in Android app.

PROJECTS

PDA GRN Goods Received Note (GRN) system on a Personal Digital Assistant (PDA) device. It is typically used in warehouse management and supply chain operations to record and verify received goods against purchase orders.

Spark Membership. Spark is a powerful platform designed for member-based businesses, offering tools to streamline management, automate processes, and enhance member relationships. Tailored for schools, studios, and fitness centers

OysterVpn. Led OysterVPN development, ensuring top-tier security and accessibility with AES 256-bit encryption, zero-logs policy, and 182+ servers across 22+ countries, guaranteeing fast, private connections. ([Try it here](#))

Status Saver for WhatsApp. Now boasts "Delete for Everyone" to retract messages and "Split Video" for shorter clips, enhancing its status as the premier WhatsApp content manager

CERTIFICATION AND PARTICIPATION

- [Working with Data in Android Certificate \(Meta\)](#) This course covers fundamentals and advanced techniques of working with data in Android applications, including data storage, retrieval, and manipulation using modern frameworks and best practices.
- [Advanced Programming in Kotlin \(Meta\)](#) This course covers Developed Android applications utilizing advanced object-oriented principles and managing Activities for a seamless user experience. Implemented unit testing with mocks and fakes, and used lambda expressions for efficient collection processing and functional programming.
- [Cisco – Introduction to Cybersecurity](#) Completed foundational course on cybersecurity, covering global cyber threats, vulnerabilities, and defense strategies. Gained insight into career opportunities and the growing demand for cybersecurity professionals.
- [Techtrons](#) , centered on "Fastest Finger First," engaged students from 15 countries in a competitive online quiz format, emphasizing speed and accuracy for maximum points..
- [Aptech Vision](#) is the embodiment of our vision for our students, which is to turn them into highly employable market-ready professionals.
- [The English Access Microscholarship Program](#) The English Access Microscholarship Program (Access) offers foundational English language skills to bright individuals aged 13 to 20 in their home countries. This program enhances job and educational prospects and enables participants to compete for future exchanges and study opportunities in the United States.

ACHIEVEMENT

- My personal web development portfolio received recognition from renowned US-based YouTuber Dennis Ivy, who featured it in his video titled [Best Portfolios](#).
